

SCOUNDRELS AND SINNERS

This entire song is the same progression:

4 (F) 5 (G) 6 (Am) 1 (C)

I have looked at pornography

I have committed adultery

I have been the drunkard, the liar and the thief

And while I was that sinner Christ died for me

I have judged the brother next to me

I have lived my life as a Pharisee

I've fasted and prayed in a spiritual parade for all of the world to see

And while I was that sinner Christ died for me

Oh, what manner of love that we should be called

Children of the Most High God

Oh, what measure of love You've lavished on us

You take harlots and calls us Your own

Here is the question: How does a sinner like me

Enter into the kingdom of God on that day and obtain Your mercy

You take scoundrels and sinners and low lives and failures

And make us the joy of Your crown

You take the arrogant and prideful, self-righteous, false-humble

You tell the tax collector come down (and you stay at his house)

And none of us deserved it but Your life you gave it

You gladly laid it down

And all our filthy garments are now red as scarlet

Washed in the blood of the Lamb

Jesus please help us understand

Jesus please help us understand

That all our filthy garments are now red as scarlet

Washed in the blood of the Lamb.
